Goodbye message from Garrett

AET(Assistant English Teacher)として約1年半にわたり皆さんに英語を教えてくれていた Garrettの勤務が本日で終了となりました。Garrettのメッセージを聞いて何を感じましたか？

To the 3rd graders,

I want to talk to you about why you study English. You probably hear "YOU MUST" often. So today, I want to talk about what you can do with English.

English is spoken by 1.268 billion people – 1,268,000,000. It's the most spoken language in the world, even more than Chinese! So with English, the #1 thing you can do is... connect to the world! But you may think, "How do we connect to the world?"

You can connect to the world through...

Books and comics, sports, music, movies & TV, working, study abroad, and talking to people and making new friends.

Many new doors will open to you.

English isn't just a subject to study.

English is a tool. English is a skill.

It's like playing baseball, or drawing, or singing.

You can train it, you can be STRONG!

I know English isn't easy. English isn't always fun.

But English is yours.

English is what you want it to be.

And you're not studying alone!!

We believe in you!

Garrett
